Welcome to Vol. 2 Number 001 of the Radio H.F. Internet Newsletter. Previous issues of this newsletter can be found at the following URL:

http://www.anarc.org/cidx/radiohf/index.html

The Newsletter began in February 1999 and the subscriber list has continued to grow every month. Due to some publicity given the Newsletter this month on Radio Canada International, I am pleased to add subscribers from Sierra Leone, India, Spain, South Africa, Germany and Japan, as well as some new U.S. and Canadian names.

As we go into the second volume of this on line publication, I thought I would share a few statistics with you. In the 11 newsletters issued in Volume 1, there were slightly over 450 different websites listed. That is an average of 40 to 45 sites per Newsletter.

The Newsletter has been featured on numerous international broadcast stations on shortwave. It has also received mention in several publications such as Monitoring Times and Popular Communications. The Newsletter has also been linked to many of the sites which have been profiled each month.

I thank everyone for the comments and support which I continue to receive for this publication. I continue to encourage your input. If you would like to submit material for future editions of the Newsletter, simply e-mail me with your name, location and the URL of the site, and include a brief description of the site. Having your name on the contributors' list entitles you to a 2% discount on your next Radio H.F. purchase.

Let's take a look at this month's information.
